## The Keystone Advantage

Keystone Fabricating located at 1220 Win Drive in Bethlehem has been in business since 1979. We are a 100% woman owned SBA Certified HUB Zone business. Keystone operates on 28,000 square feet of state of the art manufacturing space. With 30 plus employees Keystone is capable of fabricating all types of metals ranging from .010" up to .25" thickness. Our customers are located throughout the United States and are comprised of electrical, pharmaceutical, computer, food service and many others.

Our diversified capability range continues to grow. Our service and quality production has established an unparalleled reputation in the custom fabricating industry.

We are proud of our dedicated employees and expanding facility. We invite you to arrange an appointment to visit us, tour our site and discuss your fabricating requirements.

### Our Pledge

*Superior production at competitive pricing with on time deliveries.*
