Techjet X2 4000

Our New Arrival

Keystone Fabricating has purchased a new Techjet X2 4000 series. We are scheduled to take delivery in December 2011 and will be operational by mid January 2012.

This purchase is just the latest in our expanding facilities and capabilities.

Features Include:

- *6' x 12' cutting platform*
- *5-axis abrasive cutting head*
- *Ability to run unmanned*
- *Cuts Stainless Steel 6" thick*

Keystone Facilities Expanded!!!

Glass

Cutting the most delicate leadlight glass through to the strongest 100mm (4") thick

Stone

Waterjet cutting of all natural and man-made stones

Exotic Material

Waterjet is extremely powerful, capable of cutting stainless steel up to 6" thick

Gaskets

The versatility of waterjet cutting make it ideal for making gaskets

Foam and Rubber

Waterjet cutting is ideal for many foam, rubber, plastic, insulation and woven material

Estimating

We look forward to quoting your fabrication requirements. Our estimating department has over 75 years industry experience.

We will begin quoting on Waterjet jobs by the second week in January 2012.
